

SADC STATISTICAL YEARBOOK 2015

SOUTHERN AFRICAN DEVELOPMENT COMMUNITY - TOWARDS A COMMON FUTURE

SOUTHERN AFRICAN DEVELOPMENT COMMUNITY TOWARDS A COMMON FUTURE

SADC Statistical Yearbook 2015

PREFACE

This is the fifth edition of the annual publication of the SADC Statistical Yearbook intended to provide a selection of comparable and updated regional official statistics and indicators for SADC and its Member States. It aims to provide stakeholders with a comprehensive set of revised and updated critical statistical data and information on the socio-economic profiles and development of the region. This print version covers the period 2006 to 2015.

Among other things, the SADC Statistical Yearbook is also expected to serve as a tool for the identification of major gaps in existing regional statistics and, thereby, provide input for the future Regional Statistical Development Programmes. In this regard, it will be used as a coordination framework for the harmonisation and validation of statistics in the SADC region to facilitate comparisons among the Member States.

Furthermore, the SADC Statistical Yearbook will provide key stakeholders with convenient access to regular standardized and comprehensive accurate information on the socio-economic profiles of the SADC region. This should invariably contribute towards strengthening and steering informed policy-based decision making, planning, monitoring and evaluation of efforts and measures geared towards the attainment of the set goals of the SADC regional economic cooperation and integration development agenda.

The SADC Statistical Yearbook 2014 was finalised in two versions, namely; the web-based and print version providing time series and summaries of statistical data relating to SADC and its fifteen Member States on many subject matter areas including population; health; education and training;

labour market; living conditions and social protection; the economy and finance; international trade and services and industry. Others are agriculture, forestry and fisheries; transport; tourism; energy; water and information communication and technology and SADC Protocols and Declarations. Further, it also includes cross-cutting issues such as poverty; gender and environment

The SADC Secretariat expects that the statistical information contained in this publication will be invaluable and useful to the various stakeholders and users including the SADC Secretariat, Member States institutions, private sector, civil society organizations, quasi-Government, regional and international organisations and the public at large.

Lastly, the SADC Secretariat is grateful for the continued cooperation and contribution of various key role players in the collaborative development and implementation of the SADC Statistical Yearbook by the Secretariat and National Statistical Offices and National Statistical Systems of respective Member States. In particular, the SADC Secretariat acknowledges guidance and technical oversight provided the SADC Statistics Committee for adherence to best practice, and the continued support from the European Union.

Stergomena Lawrence Tax, Dr
Executive Secretary
SADC Secretariat, Gaborone, Botswana

December, 2016

INTRODUCTION

The SADC Statistical Yearbook was developed as one of the tools to improve statistical services at the Southern African Development Community (SADC) Secretariat. The general concept for the SADC Statistical Yearbook is to provide stakeholders with a comprehensive set of information on the socio-economic profiles and development of the SADC region and its Member States. Currently, SADC's fifteen Member States comprise the following: Angola, Botswana, Democratic Republic of Congo (DRC), Lesotho, Madagascar, Malawi, Mauritius, Mozambique, Namibia, Seychelles, South Africa, Swaziland, United Republic of Tanzania, Zambia, and Zimbabwe.

The SADC Statistical Yearbook provides time-series and summaries of statistical information and data to stakeholders and other users pertaining to various aspects SADC and its Member States including population, society, government, economy, and cross cutting issues such as poverty, environment and gender. The socio-economic information from the SADC Statistical Yearbook can be used to discern the baseline situation and profiles of the SADC region and its Member States.

To facilitate comparability of indicators across countries and the region and over time, the annual data from Member States, complemented by international data sources, were used. Given the diversity of SADC countries, the SADC Statistical Yearbook placed emphasis on indicators expressed as ratios, percentages, rates, or in per capita terms, with absolute numbers presented only to a limited extent.

It is expected that the SADC Statistical Yearbook can provide stakeholders with convenient access to regular and comprehensive information on the socio-economic profiles and development of the region with the aim of enhancing understanding of the key development issues of SADC and its Member States. Moreover the SADC Statistical Yearbook can be used as tool to contribute towards steering information-based policy and decision making, planning, monitoring and evaluation for the region's economic cooperation and integration.

In addition to the preface and acknowledgement sections, the SADC Statistical Yearbook comprises ten broad-based subject matter sections containing tables on various aspects of specific areas as follows:

- Section 1: Population and Migration
- Section 2: Social Services - Education, Health and Housing and Basic Services
- Section 3: Poverty and Income Distribution
- Section 4: Gender Equality
- Section 5: Labour and Employment
- Section 6: Macro-Economy - National Accounts, Balance of Payments, Merchandise Trade, Trade in Services, Financing and External Debt, Government Accounts, Money and Banking and Prices

- Section 7: Foreign Direct Investment
- Section 8: Statistics on Major Industrial Groups - Transport, Information Communication and Technology, Tourism, Agriculture, Food Security, Forestry, Mining and Quarrying, Energy and Water
- Section 9: Environmental and Sustainable Development
- Section 10: SADC Protocols and Declarations

A glossary and technical notes and sources of the indicators contained in the Statistical Yearbook have been compiled and presented in a separate publication: SADC Statistical Yearbook 2015 – Technical Notes and Sources and contains internationally recognised concepts and definitions together with data sources for the indicators.

The production of the SADC Statistical Yearbook was undertaken with the full involvement of SADC Member States through the guidance and activities of the SADC Statistics Committee (SSC). The SSC comprises Heads of National Statistical Offices of respective Member States as bona fide members of the Committee. During its meeting held in June 2016 in Gaborone, Botswana, the SSC urged Member States to ensure to nominate two representative focal persons, one with expertise in economic statistics and the other in population and social statistics, to liaise with the SADC Secretariat in the compilation of the SADC Statistical Yearbook. In addition, a workshop to validate and harmonise the data was held for Member States in Johannesburg, South Africa in October 2016 with key specific objectives which included the following:

- To validate and harmonise data as compiled for zero draft of the SADC Statistical Yearbook 2015 experience
- To identify data gaps and common challenges experience by Member States
- To seek for common solutions and approaches for improving future editions of the Statistical Yearbook

The SADC Secretariat greatly appreciates the support and cooperation received from National Statistical Offices in coordinating the collection of the required official statistics and indicators for this exercise from the institutions and agencies within the National Statistics Systems (NSSs).

Comments and suggestions for improving future editions of the SADC Statistical Yearbook are most welcome and more details on the SADC Statistical Yearbook can be obtained by directing inquiries to the Statistics Unit, Directorate of Policy, Planning and Resource Mobilisation, SADC Secretariat, Plot 54385 CBD Square, P/Bag 0095 Gaborone, Botswana; Tel: +267 395 1863; Fax: +267 397 2848/318 1070; email: registry@sadc.int; web: www.sadc.int

Tracy Zinanga, Ms
Acting Director: Policy, Planning and Resource Mobilisation
(PPRM)

ACKNOWLEDGEMENT

Preparation of the SADC Statistical Yearbook 2014 was undertaken by the SADC Secretariat Statistics Unit in collaboration with National Statistical Offices (NSOs) as focal points for the National Statistical Systems (NSSs) of the respective Member States.

The SADC Secretariat core team responsible for compilation and editing of the SADC Statistical Yearbook was led by Ackim Jere, Senior Officer – Statistics and included Cyril Parirenyatwa, Programme Officer – Social Statistics and Deepchandsingh Jagai, Programme Officer – Economic Statistics. The Statistical Yearbook was prepared under the general guidance of Dr Angelo Mondlane, Director for Policy Planning and Resource Mobilisation.

The participation of SADC Secretariat Directorates in the needs assessment for the identification of priority statistical areas provided the basis for the design, structure, and content of the SADC Statistical Yearbook. The significant role played by the SADC Statistics Committee through overseeing and providing strategic guidance and policy direction to the process of developing the SADC Statistics Yearbook cannot be overemphasized.

In line with the agreement of the SADC Statistics Committee, the primary data source for the SADC Statistical Yearbook has been the National Statistical Systems (NSSs) of respective SADC Member States and complemented by regional and international data sources.

National Statistical Offices of the respective SADC Member States designated focal persons and participants to the Statistical Yearbook and Validation Workshop who were actively involved especially in the collection and submission of validated data for their respective countries to SADC Secretariat. These included the following:

- Angola - Dr Agostinho Sardinha and Mrs Teresa Isaac Spinola
- Botswana - Mrs Ruth Kemmone Mothibi and Ms Grace Mphetolang
- Democratic Republic of Congo - Mr Cyprien Ewomo Ntotele and Mr Jupiter Kakimosiko Nasenge Matadi
- Lesotho - Mrs Matlhoeko Justina Matjotjela Thaisi and Ms Relebohile Bulane
- Madagascar - Mr. Dera Andriambololona, Mr. Niry Liva Randriamhaja, Mr Randrianjanaka Ravelomanana and Mr Eric Jean Michel Rakotomanana

- Malawi - Mr Blazio Mark Haleke, Mr Luther Happy Simbowe and Mrs. Tereza Lipinga Mtuwa
- Mauritius - Mrs. Dhanwantee Ramphul, Mr Chettun Kumar Arianaick and Mr. Anand Ramasamy
- Mozambique - Ms Felicidade António Pires and Ms Dionisia Godiva Jonia Khossa
- Namibia - Mr Joseph Minnaar, Mr Sapalov T. Quita and Mr. Aloysius Tsheehama
- Seychelles - Mr. Aubrey Fock-Tave and Mr. Burny Payet
- South Africa - Dr Arulsivanathan Naidoo, Ms Phakedi Gaongalelwe Seo and Ms. Ngwakana Norah Maake
- Swaziland - Mr Hanson Siboniso Dlamini, Mr Lukhele Gcina Makhosonkhe and Ms. Tsembayena Phakathi
- United Republic of Tanzania - Mr Seif Ahmad Kuchengo and Mr Daniel William Masolwa
- Zambia - Mr Alick Gelson Banda and Mr. Anthony SILUNGWE
- Zimbabwe - Mr Clever Chingwara and Mr Handrick Chigiji

The SADC Secretariat is also grateful to the other (sub-) regional and international organisations that compile and produce statistics in their own spheres of work which have been used as data sources in cases where data were not available from NSSs. Notable among these organisations include the United Nations Statistics Division (UNSD), United Nations Economic Commission for Africa (UNECA), African Development Bank (AfDB), World Bank, International Monetary Fund (IMF), Food and Agriculture Organization (FAO); International Labour Organization (ILO); International Energy Agency (IEA); International Telecommunication Union (ITU); United Nations Children Fund (UNICEF); United Nations Educational, Scientific and Cultural Organization (UNESCO); World Health Organization (WHO).

Finally, special thanks go to the European Union for providing the bulk of the necessary resources, both technical and financial, that enabled the compilation of the SADC Statistics Yearbook, conduct of Validation Workshop and printing of the publication

Symbols, Abbreviations and Acronyms

Symbols and Abbreviations

The following symbols and abbreviations are used in the Yearbook tables:

Symbols	Description
0	Magnitude zero or the figure is not large enough to be measured with the smallest unit in the table.
#	Major break in the series.
%	Percent
*	Value is provisional or an estimate and is therefore likely to change.
.	A point (.) is used to indicate decimals.
...	Not applicable
'000	Thousand
1 cubic kilometer	1e+9 cubic meter = 1 000 000 000 cubic meter
1 sq. km	100 Ha
Blank	No response from Member State
Cont'd	Continued

Symbols	Description
g	gramme
Ha	Hectare
kcal	kilocalorie
mio	million
n.a.	Not available
n.e.s.	The abbreviation n.e.s. indicates that the item in question is not elsewhere specified or included.
Space	A space separates thousands
Total	The totals given in the tables correspond to the sum of the individual values shown in each table, unless otherwise stated. Individual figures and percentages in tables may not add up to the corresponding total, because of rounding.
Yrs.	Years

8.3.1.25 Agricultural Producer Price for Chicken Live Weight in SADC, US \$ Per Tonne, 2006 - 2015	267
8.3.1.26 Agricultural Producer Price for Chicken Meat in SADC, US \$ Per Tonne, 2006 - 2015	268
8.3.1.27 Agricultural Producer Price for Goat Live Weight in SADC, US \$ Per Tonne, 2006 - 2015	269
8.3.1.28 Agricultural Producer Price for Goat Meat in SADC, US \$ Per Tonne, 2006 - 2015	270
8.3.1.29 Agricultural Producer Price for Pig Live weight in SADC, US \$ Per Tonne, 2006 - 2015	271
8.3.1.30 Agricultural Producer Price for Pig Meat in SADC, US \$ Per Tonne, 2006 - 2015	272
8.3.1.31 Agricultural Producer Price for Sheep Live weight in SADC, US \$ Per Tonne, 2006 - 2015	273
8.3.1.32 Agricultural Producer Price for Sheep Meat in SADC, US \$ Per Tonne, 2006 - 2015	274
8.3.1.33 Maize Production in SADC (Production, Area, and Yield), 2006 - 2015	275
8.3.1.34 Sorghum Production in SADC (Production, Area, and Yield), 2006 - 2015	276
8.3.1.35 Rice Production in SADC (Production, Area, and Yield), 2006 - 2015	277
8.3.1.36 Cassava Production in SADC (Production, Area, and Yield), 2006 - 2015	278
8.3.1.37 Wheat Production in SADC (Production, Area, and Yield), 2006 - 2015	279
8.3.1.38 Groundnut Production in SADC (Production, Area, and Yield), 2006 - 2015	280
8.3.1.39 Soya bean Production in SADC (Production, Area, and Yield), 2006 - 2015	281
8.3.1.40 Coffee Production in SADC (Production, Area, and Yield), 2006 - 2015	282
8.3.1.41 Tea Production in SADC (Production, Area, and Yield), 2006 - 2015	283
8.3.1.42 Seed Cotton Production in SADC (Production, Area, and Yield), 2006 - 2015	284
8.3.1.43 Tobacco Production in SADC (Production, Area, and Yield), 2006 - 2015	285
8.3.1.44 Sugarcane Production in SADC (Production, Area, and Yield), 2006 - 2015	286
8.3.1.45 Exports of Selected Agricultural Products and Inputs in SADC, Million US \$, 2009 - 2015	287
8.3.1.46 Imports of Selected Agricultural Products and Inputs in SADC, Million US \$, 2009 - 2015	289
8.3.1.47 Livestock Population in SADC, Number, 2006 - 2015	291
8.3.1.48 Livestock and Poultry Meat Production in SADC, Thousand Tonne, 2006 - 2015	292
8.3.1.49 Fish Production in SADC, Freshwater and Marine Catch, Tonne, 2006 - 2015	294
8.3.2 FOOD SECURITY	295 - 296
8.3.2.1 Consumer Price Index (CPI) for Food in SADC, (Base Year 2006 = 100), 2006 - 2015	296

TABLE OF CONTENTS (CONTD.)

	Page
8.3.3 FORESTRY	297 - 304
8.3.3.1 Land Area in SADC Covered By Forest by Five Year Period, 2006 - 2015	298
8.3.3.2 Annual Change Rate in Total Forestry Area in SADC, '000 Ha Per Year, 2006 - 2015	289
8.3.3.3 Total Land Area in SADC, '000 Ha, 2006 - 2015	300
8.3.3.4 Forest Area as a Percentage of Land Area in SADC, '000 Ha, 2006 - 2015	301
8.3.3.5 Exports and Imports of Wood Related Forestry Products in SADC , Million US \$, 2006 - 2015	302
8.3.3.6 Exports and Imports of Non-Wood Forestry Products in SADC , Million US \$, 2006 - 2015	303
8.3.3.7 Exports and Imports of Wood and Non-Wood Forestry Products in SADC , Million US \$, 2006 - 2015	304
8.4 MINING AND QUARRYING	305 - 307
8.4.1 Mining Production in SADC, 2006-2015	306
8.5 ENERGY AND WATER	308 - 337
8.5.1 ENERGY	309 - 326
8.5.1.1 Energy production in SADC, kt of oil equivalent, 2006 - 2015	310
8.5.1.2 Total Electricity Production in SADC, Million Kilowatt-Hour, 2006-2015	311
8.5.1.3 Total Net Installed Capacity of Electricity Power Plants in SADC, Thousand Kilowatt, 2006 - 2015	312
8.5.1.4 Energy Consumption in SADC per \$ of GDP at Constant 2006 Prices, 2006 - 2015	313
8.5.1.5 Energy Consumption per \$ of GDP at Constant 2000 Prices	314
8.5.1.6 Energy Consumption in SADC, Total and Per Capita, by Source of Commercial Energy, 2006 - 2015	315
8.5.1.7 Total Energy Use in SADC, Kt of Oil Equivalent, 2006 - 2015	316
8.5.1.8 Total Energy Use Per Capita in SADC, Kt of Oil Equivalent, 2006 - 2015	317
8.5.1.9 Percentage of Population in SADC With Access to Electricity, 2009 - 2015, Selected years	318
8.5.1.10 Fuels Used in SADC for Cooking and Access to Modern Fuels in SADC, Percent Total Population, Latest Year	319
8.5.1.11 Consumer Price Indices in SADC for Energy, 2006 - 2015	320
8.5.1.12 Electricity Tariffs in SADC by Type of Customer, US \$, 2006 - 2015	321
8.5.1.13 Pump prices for gasoline in SADC in US cents per litre, 2006 - 2015, Selected Years	324
8.5.1.14 Pump prices for diesel in SADC in US cents per litre, 2006 - 2015, Selected Years	325
8.5.1.15 Price for Kerosene in SADC, US \$ per litre, 2006 - 2015	326

TABLE OF CONTENTS (CONTD.)

	Page
8.5.2 WATER	327 - 337
8.5.2.1 Total Annual Renewable Water Resources Available in SADC, 2010 - 2015	328
8.5.2.2 Total annual renewable internal water resources per capita in SADC, 2007 - 2015, Selected years	329
8.5.2.3 Total Annual Freshwater Withdrawals in SADC, Billion Cubic Meter, 2007 - 2015, Selected Years	330
8.5.2.4 Percentage of Total Annual Freshwater Withdrawals Used for Domestic Use in SADC, 2007 - 2015, Selected Years	331
8.5.2.5 Percentage of Total Annual Freshwater Withdrawals Used for Agriculture (Irrigation) in SADC, 2007 - 2015, Selected Years	332
8.5.2.6 Percentage of Total Annual Freshwater Withdrawals Used for Industry in SADC, 2007 - 2015, Selected Years	333
8.5.2.7 Percentage Population Connected to Public Water Supply in SADC, (%), 2006 - 2015	334
8.5.2.8 Water Tariffs in SADC, US \$, 2006 - 2015	335
8.5.2.9 Consumer Price Indices for Water in SADC, 2006 -2015	336
8.5.2.10 Total Emissions of Organic Water Pollutants(BOD) in SADC Per Day, Unit, 2006 - 2015	337
9. ENVIRONMENTAL AND SUSTAINABLE DEVELOPMENT	338 - 347
9.1 Carbon Dioxide Emissions in SADC, Total and Per Capita, 2006 - 2015	339
9.2 Mean Annual Rainfall in SADC, mm, 2006 - 2015	340
9.3 Mean Annual Temperature in SADC, 0 ^c , 2006 - 2015	341
9.4 Consumption of Ozone-Depleting Chlorofluorocarbons (CFCs) in SADC, Tons of Ozone-Depleting Potential, 2006 - 2015, Selected Years	342
9.5 Total Land Area in SADC, Km ² , 2006 - 2015	343
9.6 Number of Threatened Plant Species in SADC, 2006 - 2015, Selected Years	346
9.7 Number of Threatened Animal Species in SADC, 2006 - 2015, Selected Years	347
10. SADC PROTOCLS	348 - 351
10.1 Status on Protocols and Declarations in SADC as of July 2015	349

Notes:

* Figures correspond to the number of seats currently filled in Parliament

1 - South Africa: The figures on the distribution of seats do not include the 36 special rotating delegates appointed on an ad hoc basis, and all percentages given are therefore calculated on the basis of the 54 permanent seats.

Notes:

* Figures correspond to the number of seats currently filled in Parliament

1 - Madagascar: 2010 Parliament has been dissolved or suspended for an indefinite period.

2 - Namibia: 2010 Figure excludes 11 members yet to be sworn in.

3 - South Africa: The figures on the distribution of seats do not include the 36 special rotating delegates appointed on an ad hoc basis, and all percentages given are therefore calculated on the basis of the 54 permanent seats.

Notes

Sources: Comparative Outputs, Incomes and Price Levels in African Countries - Final Results of the 2005 Round of the International Comparisons Program for Africa
A Comparison of Real Household Consumption Expenditures and Price Levels in Africa 2012, 2009 ICP - Africa Results

Data for the GDP indicators in the above table were obtained from Table S0: Per Capita Gross Domestic Product and Price Level Index, By Country, in the ICP - Africa report

Data for the ICEH indicators were obtained from Table S1: Per Capita Individual Consumption Expenditures and Price Level, By Country

International \$ = PPP

GDP - Gross Domestic Product

PPP - Purchasing Power Parity

ICEH - Individual Consumption Expenditure by Households

...Zimbabwe data were suppressed because of extreme volatility in the official exchange rate

AFRIC - African Regional Currency

National Statistics Offices of Member States

Definitions:

Energy production - Refers to forms of primary energy--petroleum (crude oil, natural gas liquids, and oil from nonconventional sources), natural gas, solid fuels (coal, lignite, and other derived fuels), and combustible renewables and waste--and primary electricity, all converted into oil equivalents.

National Statistics Offices of Member States

Notes:

Total electricity production = total production by public providers + total by self producers

Producers of different types of electricity - public producers and self producers

Data for self producers are estimates as per data source notes: Madagascar (2000 - 2010); Malawi (2002-2008); United Republic of Tanzania (1999 - 2012)

Data for both public and self producers are estimates as per data source notes: Malawi (2000 - 2001; 2009 - 2010)

Definitions:

Installed electricity capacity is the electricity production capacity of a particular facility. It is usually expressed in Megawatts (or sometimes even Gigawatts) and can come from hydraulic, nuclear, thermal, solar or wind power.

Definitions

Energy use per PPP GDP is the kilogram of oil equivalent of energy use per constant PPP GDP. Energy use refers to use of primary energy before transformation to other end-use fuels, which is equal to indigenous production plus imports and stock changes, minus exports and fuels supplied to ships and aircraft engaged in international transport. PPP GDP is gross domestic product converted to 2005 constant international dollars using purchasing power parity rates. An international dollar has the same purchasing power over GDP as a U.S. dollar has in the United States.

ENERGY USE PER UNIT OF GDP (ENERGY INTENSITY)

- (a) Name: Energy Use per unit of GDP.
- (b) Brief Definition: Ratio of total energy use to GDP.
- (c) Unit of Measurement: Megajoules (mJ) per \$.
- (d) Placement in the CSD Indicator Set: Economic/Consumption and Production Patterns/ Energy Use.

2. POLICY RELEVANCE

- (a) Purpose: Trends in overall energy use relative to GDP indicate the general relationship of energy consumption to economic development and provide a rough basis for projecting energy consumption and its environmental impacts with economic growth. For energy policy - making, however, sectoral or sub-sectoral energy intensities should be used.
- (b) Relevance to Sustainable/Unsustainable Development (theme/sub-theme): Energy is essential for economic and social development, but consumption of fossil fuels is the major cause of air pollution and climate change. Improving energy efficiency and delinking economic development from energy consumption, particularly of fossil fuels, is essential to sustainable development.
- (c) The ratio of energy use to GDP indicates the total energy being used to support economic and social activity. It represents an aggregate of energy consumption resulting from a wide range of production and consumption activities. In specific economic sectors and sub-sectors, the ratio of energy use to output or activity is the "energy intensity" (if the output is measured in economic units) or the "specific energy requirement" (if the output is measured in physical units such as tonnes or passenger-kilometers).

Definitions:

Access to electricity is measured as the percent of people that have a household electricity connectio. The electricity connection may vary by quantity (e.g., hours of availability in a day), quality (e.g., rated voltage and frequency), and use | (e.g., light bulb to a wide range of end-users).

Definitions

Access to modern fuels is measured as the percent of people that use electricity, liquid fuels, or gaseous fuels as their primary fuel to satisfy their cooking needs. These fuels include liquified petroleum gas (LPG), natural gas, kerosene (including paraffin), thanol, and biofuels, but exclude all traditional biomass (e.g. , firewood, charcoal, dung, and crop residues)and coal (including coal dust and lignite)

National Statistics Offices of Member States

Notes:
Angola: The price of electricity in the national currency has not changed during these years. The different prices in dollars are results of exchange rate variation
South Africa : The electricity tariffs are the approved tariffs from the National energy regulator of SA (NERSA) for the most representative municipality - Rand Values; Data was submitted in Rands by Statssa, converted to US\$ using the average exchange rates for the relevant year
Zimbabwe: In 2006 Zim dollar was revalued, that's why the prices before 2006 appear as though they are higher than from 2006 -2007; Zimbabwe experienced hyperinflation from 2007 - 2008

Implementing the SADC Regional Strategic Plan for Integrated Waters Resource Management (1999 -2004). Lessons and best practices
World Development Indicators, <http://databank.worldbank.org/data/reports.aspx?source=world-development-indicators>: Data for 2012&2014: Botswana, Democratic Republic Of Congo, Lesotho, Madagascar, Malawi, Mozambique, Namibia, South Africa, Swaziland, Tanzania, Zambia, Zimbabwe
National Statistics Offices of Member States

Definition:

Water resources: total renewable (natural)

Total Natural Renewable Water Resources (TRWR_natural): The long-term average sum of internal renewable water resources (IRWR) and external natural renewable water resources (ERWR_natural). It corresponds to the maximum theoretical yearly amount of water actually available for a country at a given moment.

Proportion of total water resources used = surface water and ground water withdrawal as percentage of total renewable water resources. Water withdrawal is the quantity of water removed from available sources for human use (in the agricultural, domestic and industrial sectors), expressed as a percentage of the total volume of water

1 cubic kilometer = 1e+9 cubic meter = 1 000 000 000 cubic meter

Table 8.5.2.2 Total annual renewable internal water resources per capita in SADC, 2007 - 2015, Selected years

Definition:

Renewable internal freshwater resources flows refer to internal renewable resources (internal river flows and groundwater from rainfall) in the country. Renewable internal freshwater resources per capita are calculated using the World Bank's population estimates.

Definition:

Freshwater : Surface water and ground water. While desalinated water, reused wastewater and saline water are used by different sectors, AQUASTAT does not consider any of these water types to be freshwater.

Percentage of total actual renewable freshwater resources withdrawn: Total freshwater withdrawn in a given year, expressed in percentage of the actual total renewable water resources (TRWR_actual). This parameter is an indication of the pressure on the renewable water resources.

Notes:

Angola : Water supply parallel is measured in grade (0 to 10 m³ / Escalão (0 a 10 m³)); Water supply parallel is measured in 200 litres / (200Ltros Grade (0 to 10 m³))

Lesotho: Price data submitted in Maloti by BOS, converted to US\$ using the average exchange rates for the year

Seychelles: Water not a separate indicator in CPI. It is part of the energy index which include housing, cooking gas, electricity etc.

South Africa : Tariffs for the most representative municipality - in Rand value; Price data submitted in Rands by Statssa, converted to US\$ using the average exchange rates for the year

UNSD Millennium Development Goals Indicators database (see <http://mdgs.un.org/unsd/mdg/Data.aspx>): downloaded: 22 September 2016: Data for 2011: Angola, Botswana, Democratic of Congo, Lesotho, Madagascar, Malawi, Mauritius, Mozambique, Namibia, Seychelles, South Africa, Tanzania, Zambia, Zimbabwe

National Statistics Offices of Member States

Definitions & Technical notes:

CO2 emission sources include emissions from energy industry, from transport, from fuel combustion in industry, services, households, etc. and industrial processes, such as the production of cement. Changes in how land is used can also result in the emission of CO2, or in the removal of CO2 from the atmosphere. However, as there is not yet an agreed method for estimating this, it is not included in the figures for CO2 emissions. Burning of biomass such as wood and straw also emits CO2; however, unless there has been a change in land use, it is considered that CO2 emitted from biomass is removed from the air by new growth, and therefore it should not be included in the total for CO2.

National Statistics Offices of Member States

Notes:

The baseline value for CFCs, 1995-1998, is calculated by the Ozone Secretariat for monitoring compliance in reducing consumption of ODS. The calculation of the baseline varies across parties and substance categories. In the case of CFCs, the baseline for developing countries (Article 5) is the average annual consumption from 1995 to 1998

Data Quality: Data reported to the Ozone Secretariat by the Montreal Protocol parties are collected using a variety of methods. These include registries or other collections from known producers and consumers, use of estimates and surveys, collecting information through (or from) customs, among other methods. National figures are used directly without adjustment. Currently, there is no validation by the Ozone Secretariat of the reported data. However, inconsistencies in the data are checked and rectified in consultation with the countries (e.g. reporting production for a specific use exceeding total production, or reporting abnormally high values compared to previous trends). Any missing values are left as non-reported in the Ozone Secretariat website (no attempts are made to estimate or impute values for missing years). For more information visit the Ozone Secretariat's website at: <http://ozone.unep.org/>.

Notes:

R: Country Ratified; C: Country acceded; S: Country signed; A: Country adopted

Madagascar is required to accede to the Treaty

* MoU – Memorandum of Understanding

** The protocol entered into force upon the adoption of the agreement amending the Treaty of SADC at Blantyre in August 2002. Thus there will be no further requirement for individual SADC member states to ratify the protocol.

*** Angola, DRC and Madagascar are required to deposit instruments of implementation

Notes:

R: Country Ratified; C: Country acceded; S: Country signed; A: Country adopted

Madagascar is required to accede to the Treaty

* MoU – Memorandum of Understanding

** The protocol entered into force upon the adoption of the agreement amending the Treaty of SADC at Blantyre in August 2002. Thus there will be no further requirement for individual SADC member states to ratify the protocol.

*** Angola, DRC and Madagascar are required to deposit instruments of implementation
