The SADC Region registered annual inflation rate of 8.2% in November 2015 compared to November 2014 as measured by the HCPI. Month on Month inflation rate registered an increase of 0.8% in November 2015 compared to October 2015.

Introduction

This is the fifty-first issue in series since the launch of news releases on SADC HCPI initiative. It provides updates up to November 2015 on HCPI for SADC Member States.

Annual Inflation rates for SADC Member States

The reported annual inflation rates for November 2015 of SADC Member States range from a highest at 26.5% for Malawi to -2.6% for Zimbabwe. As in previous months, Malawi continued to record the highest, double digit inflation rates among the SADC Member States. Angola and Zambia also registered similar price increase levels since October 2015 with November inflation rate of 13.4% and 22.5% respectively. The annual inflation rates for the rest of the other Member States were reported as follows: Botswana (2.9%), DRC (0.8%), Lesotho (8.1%), Madagascar (6.9%), Mauritius (1.6%), Mozambique (6.2%), Namibia (3.7%), Seychelles (5.9%), South

Africa (4.8%), Swaziland (4.4%), and Tanzania (7.2%), as reflected in table 2 below.

Compared to the SADC regional annual average inflation rate of 8.2% for November 2015, twelve SADC Member States recorded annual rates below the regional average whilst three Member States namely: Angola, Zambia and Malawi registered rates higher than the regional average. See figure 3 below for more details.

Month on Month Inflation rates for SADC Member States

All SADC Member States registered increases in the month on month inflation rates in November 2015, with the exception of Seychelles registering decreases of 0.2%. The highest month on month inflation rate of 7.1% was registered by Zambia as reflected in table 1 below.

Annual Inflation Rates by COICOP divisions

With regard to the Classification of Individual Consumption by Purpose

(COICOP) major divisions, five

Divisions registered annual inflation less than the regional average of 8.2% in November 2015 compared to November 2014. These include Communication (-0.1%), Transport (0.8%), Education (6.3%), Housing, Water, Electricity, Gas and Other Fuels (6.3%) and Alcoholic Beverages and Tobacco (6.7%). The remaining Divisions recorded annual rates of inflation above the SADC average of 8.2% with Furnishings, Household Equipment and Routine Household Maintenance registering highest increase of 11.1%. See table 4 below.

Month on Month Inflation Rates by COICOP divisions

All the Divisions recorded increases in month on month inflation in November 2015, with the exception of Transport and Communication registering decreases of 0.1% and 0.3% respectively, whilst the highest increase was of 1.5% in the category of Food and Non-alcoholic Beverages. Table 3 below provides details.

Measures of inflation

The annual rate measures the price change between the current month and the corresponding month of the previous year. The rate is responsive to recent changes in price levels but it can

also be influenced by one-off effects in either month.

The 12 month average compares the average HCPI in the latest 12 months to the average of the previous 12 months. It overcomes

the volatility of the annual measure. The monthly rate measures the price change between the two latest months. Although up to date, it can be affected by seasonal and other short-term effects

The Harmonised Consumer Price Index

The Harmonised Consumer Price Index (HCPI) is defined as the Consumer Price Index (CPI) developed from comparable methodologies. That means CPIs which have been developed from the concepts, definitions and methods that are comparable. CPIs are economic indicators that measure changes overtime of prices of consumer goods and services purchased by households. HCPI is meant to provide an official measure of inflation in the region, and it makes international comparisons easier since the national HCPIs are produced using harmonised methodologies and as much is practicable using the same statistical classifications, standards and frameworks.

Both the HCPIs and national CPIs measure inflation faced by consumers, and use the same

data sources in most part. However, the two measure inflation with different aims and therefore, sometimes October use different concepts and methods. HCPI's main use is for monetary policy, and is used as one of the convergence criteria to assess compliance of Member States to economic unions and to monitor progress towards integration. Member states of economic unions are given target inflation levels to achieve, in specified period to be considered for some preferential treatments within the integration. And this requires a harmonised conceptual framework and comparable results. The national CPIs in addition to being the measure of inflation have many other purposes such as cost of living which October require different methodologies.

The Member States HCPIs are produced by respective Member

States using agreed harmonised methodologies. The SADC HCPI is compiled by the SADC Secretariat by aggregating the National HCPIs of the Member States. These are calculated as weighted averages of the national HCPIs, using as weights each country's total household consumption expenditure converted to a common currency using the purchasing power parities derived from the results of the 2005 (for HCPIs prior to January 2013), 2009 (for HCPIs January 2013 to December 2014) and 2011 (for HCPIs since January 2015) International Comparison Program as supplied by the African Development Bank and the World Bank.

More information on SADC HCPI methodology can be availed on demand.

Acknowledgement

The SADC Secretariat duly acknowledges with thanks the continuous support and cooperation of the respective

National Statistics Offices of SADC Member States in providing monthly national HCPIs which form the basis for the aggregate

SADC HPCI. The collaboration with COMESA and African Development Bank in this exercise is equally acknowledged.

Production team

This news release was produced under the auspices of the SADC Statistics Programme in the Directorate of Policy Planning Resource Mobilisation of the SADC Secretariat, Gaborone, Botswana.

The production team comprised mainly **Mr. Ackim Jere** (Head SADC Statistics Programme) and **Mr. Deepchandsingh Jagai** (Programme Officer - Economic Statistics). The news release was produced under the general

direction of **Dr. Angelo Mondlane**, Director - Directorate Policy Planning Resource Mobilisation.
